Once again, I am very happy and proud to be presenting to our community members the list of the various JivDaya allocations made for 2011 year.

The list is long(!) and the donations have only been made possible - of course - through the wonderful and generous support received from the members and their families.

Please do accept from me that we do receive very thankful letters from the relevant charities and that

they acknowledge all the effort that we are making on their behalf.
